

Creating an In-line editable search

Another advanced feature of the saved search is the ability to make it inline editable. This allows you to edit the form data in the search results without having to open the form.

Reference	Date	Title	Cost Impact?	Estimated Cost	Time Impact?	Est Time	Status
SI:BLK#0019	01-JUL-13	Supply of additional Concrete Slabs	Yes	34650	Yes	2	OPEN

 When inline editing all notifications and tracking about changes are performed as per usual.

To Modify a Saved search to make it inline editable.

1. Expand the search.
2. Click Edit.
3. On the Details tab.
4. Change Output to **Editable Register**.
5. Click Save.
